**Title: "Stay in the Game"**

Members of Eureka Public FCCLA created their project, "Stay in the Game," to address three needs to stay healthy; eating healthy, staying tobacco free, and being fit. Eating Healthy essentially promoted the benefits of fruits and vegetables over unhealthy

junk food. Tobacco Free educated students on the benefits of not smoking and dangers and consequences of tobacco use. Stay in the Game promoted fitness in various ways, including demonstrating jump rope to elementary students and donating \$500 to a Jujitsu program.
